

FMSC-155F-HYD Series High Performance Hydraulic Motor Driven Centrifugal Pump

The Pro 5 Series has the same compact, close coupled design that you have come to expect with several new features to maximize life and reliability. E-coat corrosion protection and larger bearings provide longer life. A Severe duty silicon carbide seal resists abrasive scratching and transfers heat away from the faces for improved survival during short run-dry events. Interchangeability of parts within the Pro 5 Series simplifies stock and reduces inventory needed for field support.
